PAYROLL/BENEFITS

Section Subject: Pay Grade and Compensation Plan – Page 4

Adopted: October 4, 2022

04-10-11 Cost of Living Adjustments. To assure that the purchasing power of each employee's compensation retains a reasonable relationship to changes in the cost of living, the governing body may, during the budgeting process, adjust the rate of compensation by reference to the Consumer Price Index (CPI), as reported by the Bureau of Labor Statistics of the U.S. Department of Labor for the previous calendar year.

Recognizing that a cost of living adjustment is an adjustment in the purchasing value of a dollar and not in the relative value of labor, any cost of living adjustment shall be applied uniformly as either a percentage increase or flat rate increase applied to all pay grades and compensation steps.

The amount of any cost of living adjustment and whether a percentage or flat rate increase will be utilized shall depend ultimately upon the City's financial circumstances, as determined by the governing body.

CONSUMER PRICE INDEX (CPI)

Cost-of-Living Adjustment for County Officials' Salaries for Fiscal Year 2023-2024

Pursuant to Montana Code Annotated §7-4-2503 and §7-4-2504(1991), the cost-of-living adjustment is derived using the Consumer Price Index of all Urban Consumers (CPI-U) from the U.S. Department of Labor, Bureau of Labor Statistics (1982-84=100):

(A) Annual CPI-U index (annual average) for calendar year 2022: 292.655

(B) Annual CPI-U index (annual average) for calendar year 2021: 270.97

(C) Index point change for 2021 to 2022 [A - B]: $292.655 - 270.97 = 21.685$

(D) Percent change in annual indexes from 2021 to 2022 [C / B]: $21.685/270.97 = 0.0800273$ or 8.00 percent

(E) Cost-of-living adjustment factor -- 100 percent of the percent change in the annual index from 2021 to 2022 (effective 7/1/23): 8.00 percent
